Hail to walking men

like Fred Astaire, Gene
Kelley, Cary Grant,
and more

in our time,
Steve Martin.

They slip in with grace, like
the rest of us,

not. I'm with the penguins.
Others, the John Wayne Striders.

Deep bow to our peculiars. JWS guys,
on the other foot, resemble cant-
ed, pelvis-thrust

models down steep runways, ex-
cept their ass drags
for ballast.
